

The spirit of fun kayaking !

The Ouassou is designed as a versatile, fun kayak with a wide range of use.

With its excellent glide, control and maneuverability, the Ouassou is ideal for beach fun. The stern handles let you hang on and swim and allow easy access on board. The Ouassou also handles surf and waves comfortably. The 'spatula' shaped hull is derived from surf longboards and rodeo kayaks. It's quick and responsive. The slight keel and lateral rail design provide directional stability and excellent tracking. The Ouassou's optional knee-strap system also allows you to secure your body to the cockpit when you are looking for greater control in waves or whitewater. Its compact form and light weight make this a kayak that is easy to maneuver, transport and store.

- Recreational paddling in rivers
- Coastal rides
- Beach fun
- Surfing in the waves
